Quest Gala Dinner: An Evening of Hospitality Excellence

On July 19, Quest International College successfully hosted the Quest Gala Dinner, a signature hospitality event entirely planned, prepared, and managed by the Bachelor of Hotel Management (BHM) students. The event welcomed more than 120 guests from various corporate houses, providing students with an excellent opportunity to demonstrate their professional skills in a real-world hospitality setting. Held from 5:00 PM to 9:00 PM, the evening reflected the dedication, teamwork, and creativity of Quest's aspiring hospitality professionals.

The Gala Dinner featured a wide variety of carefully prepared cuisines, with students taking responsibility for every aspect of the event—from food preparation and presentation to guest service and event management. Beyond the culinary experience, the evening was enriched with vibrant cultural dance performances, creating a warm and memorable atmosphere for the guests. The seamless coordination and professionalism displayed by the students earned appreciation from attendees and highlighted the quality of practical learning at Quest International College.

Organized every semester, the Quest Gala Dinner serves as an important platform for BHM students to gain hands-on industry experience while showcasing their culinary expertise, hospitality standards, and event management capabilities. Such experiential learning initiatives bridge the gap between classroom knowledge and professional practice, preparing students to excel in the hospitality industry with confidence and competence.

Quest Annual Parents' Dining 2026

On July 20 Quest International College successfully organized the Quest Annual Parent's Dining 2026, welcoming more than 120 parents of students from the BHM, BBA, MBA, and BCSIT faculties. The event was designed to strengthen the relationship between the college and parents by providing them with an opportunity to experience the campus environment and engage with the college management. It also served as a platform to showcase the practical learning and hospitality skills of the Bachelor of Hotel Management (BHM) students.

The event was entirely organized and managed by the BHM students, who prepared and served a variety of delicious food items with professionalism and dedication. Parents had the opportunity to interact with faculty members and college management while exploring the learning environment their children experience every day. The warm hospitality, quality of service, and well-coordinated event reflected the students' practical training and commitment to excellence in hospitality.

The Quest Annual Parent's Dining is a meaningful initiative that brings parents closer to the college community while highlighting the institution's emphasis on experiential learning. By allowing parents to witness their children's practical skills and gain a deeper understanding of the academic environment, the event reinforces trust, strengthens collaboration between families and the college, and celebrates the holistic educational experience offered at Quest International College.

Business Prototype Showcase 2026

On July 24, Quest International College successfully organized the Business Prototype Showcase 2026, where MBA III Trimester students transformed innovative ideas into practical business solutions. The event provided students with a platform to present their business prototypes, demonstrating the knowledge and skills they had developed through research, strategic planning, and entrepreneurial thinking. The showcase highlighted the college's commitment to experiential learning and innovation-driven education.

During the event, students presented a diverse range of product- and service-based business models to faculty members, industry guests, and fellow students. Teams with product-based ventures displayed and sold their prototypes, while those with service-oriented business models pitched their concepts and demonstrated their value propositions to the audience. The interactive showcase allowed participants to receive valuable feedback, refine their ideas, and gain firsthand experience in marketing, customer engagement, and entrepreneurial decision-making.

The Business Prototype Showcase 2026 served as a valuable platform for bridging classroom learning with real-world business practice. By encouraging creativity, problem-solving, and innovation, the event strengthened students' entrepreneurial mindset and practical business skills. Such initiatives reflect Quest International College's dedication to nurturing future entrepreneurs and business leaders who are prepared to transform ideas into successful and sustainable ventures.

MBA Business Consulting Project Presentation

On July 25, Quest International College organized the MBA V Trimester Business Consulting Project Presentation, where students presented their consulting project before an external evaluator, Associate Prof. Umesh Singh Yadav, Faculty of Management Studies, Pokhara University. The consulting project is an integral part of the academic fulfillment of the MBA V Trimester, providing students with an opportunity to apply classroom knowledge to real-world organizational challenges. This initiative emphasized practical learning, strategic thinking, and evidence-based decision-making.

For the project, students were divided into eight teams, with each team working with a different organization to identify challenges and develop practical strategic recommendations. The teams consulted for Agri-Studio Pvt. Ltd. on business development and strategic growth; T3 Thakali Restaurant Pvt. Ltd. on sales enhancement and customer satisfaction; Evolve Pharma Pvt. Ltd. on the market entry and strategic implementation of AI-powered breast cancer screening technology; KIST Medical College and Teaching Hospital on patient dissatisfaction and declining OPD footfall; Shubhalabh Multipurpose Cooperative Limited on member engagement, digital transformation, and sustainable growth; EduSanjal on brand visibility and brand recall; Upachar Nepal Pvt. Ltd. on brand awareness, trust, and adoption; and Machhapuchhre Capital Limited on improving IPO management and market share. Through these projects, students conducted research, analyzed organizational challenges, and presented actionable recommendations tailored to each organization.

The consulting project presentation served as an important bridge between academic learning and professional practice, allowing students to experience the responsibilities of a business consultant. The evaluation by an external academic expert further provided students with valuable feedback and an opportunity to strengthen their analytical and presentation skills. Such industry-oriented projects reflect Quest International College's commitment to experiential learning and preparing MBA graduates to approach complex business challenges with confidence, research-based insights, and strategic thinking.

Received Excellence in Academic Research & Publication Award

On July 16, Quest International College achieved another significant milestone by receiving the Excellence in Academic Research & Publication Award at the Education Excellence Awards 2026. This prestigious recognition reflects the college's unwavering commitment to academic excellence, high-quality research, scholarly publications, and the continuous promotion of a vibrant research culture.

Receiving this honor further strengthens Quest International College's vision of becoming a leading institution for research-driven education. Through continuous support for faculty research, student projects, academic publications, conferences, and collaborative initiatives, the college remains committed to creating an environment where innovation and scholarly excellence thrive.

Quest Students Present Research at Nepal Entrepreneurial Forum II

On July 20 Quest International College proudly marked another academic milestone by presenting five research papers at the Nepal Entrepreneurial Forum II, organized by King's College. The prestigious international forum provided a platform for researchers, academicians, entrepreneurs, and policymakers to exchange ideas and discuss sustainable entrepreneurship and innovation. Representing Quest International College, Ms. Niruta Subedi, Mr. Dhan Bahadur Lower, Mr. Bhim Rai, Ms. Manisha Thapa, and Ms. Liza Kumari Jha showcased their research, demonstrating the institution's growing contribution to academic scholarship and research excellence.

The successful presentation of these research papers reflects Quest International College's strong commitment to fostering a culture of research, critical thinking, and academic innovation.

AI for Learning: Exploring the Future of Digital Skills

On July 16, Quest International College organized an AI for Learning session in collaboration with SkillSpark, providing students with an engaging and interactive introduction to the rapidly evolving world of artificial intelligence. Through a practical, hands-on workshop, participants explored a range of powerful AI tools and gained valuable insights into how these technologies are transforming education, business, and the modern workplace. The session reflected the college's commitment to equipping students with future-ready knowledge and digital competencies.

The workshop enabled students to discover real-world applications of AI while developing practical skills that will support their academic and professional journeys. By encouraging experimentation with emerging technologies and promoting digital literacy, the session empowered students to embrace innovation with confidence.

Navigating Market Trends and Careers in the IT Sector

On July 28, Quest International College organized an insightful career development session aimed at preparing students for the evolving professional landscape. The interactive program covered current market trends, emerging opportunities in the IT sector, effective CV building, and the growing importance of LinkedIn and social media in career development. The session provided students with practical guidance on enhancing their employability and building a strong professional presence in today's competitive job market.

The session empowered students with industry-relevant knowledge and essential career skills, enabling them to better understand employer expectations and the value of personal branding. Through expert insights and practical recommendations, participants learned how to create impactful resumes, optimize their LinkedIn profiles, and leverage digital platforms for networking and career advancement.
